FOR IMMEDIATE RELEASE:

October 2004

Virtual IT Provides Security Posture Assessment to Loudoun County

Roanoke, VA –

Virtual IT has been chosen to conduct the County of Loudoun's annual security review. "This is a very important project for us," says Gene Troxell, the County's Director of Information Technology, "because it deals with the security aspects of our network, [addressing] threats of hackers, criminals and cyber-terrorism."

During the course of this critical project, Virtual IT will produce a detailed security posture assessment focusing on areas such as external perimeter security, wireless implementations, specific workstations and collaborative security architecture. Virtual IT will also identify strategic security issues and develop strategy recommendations.

Virginia-based Virtual IT provides comprehensive security consulting services and technology solutions to businesses and government agencies, to optimize the protection of their physical and information assets. Licensed as a private security firm by the Virginia Department of Criminal Justice, Virtual IT offers a one-stop shop of cutting edge security services and solutions, which may be procured individually or in combined, customized packages.

Our seasoned professionals bring a depth of experience with state agencies, local governments, manufacturing and retail companies, Department of Energy sites, and law enforcement agencies. Likewise, our strategic partners have backgrounds in intelligence (such as CIA and Special Operations) and law enforcement. A hallmark of our practice is our ability to leverage emerging technologies.

Virtual IT is a full-service information technology consultancy, providing high-level strategic and tactical support for businesses, contractors and government agencies. The firm provides services in the areas of business strategy, IT strategy, and enterprise application integration and development. Headquartered in southwestern Virginia, serving the Mid-Atlantic and Southern regions, the company provides clients with high-quality corporate services within a small company setting.
