MAY 2009

Virtual IT Releases SharePoint® Productivity Packs

May 1, 2009 –

Our clients want fast and efficient access to consulting services related to Microsoft SharePoint® solutions. In response we introduced our [SharePoint® Productivity Packs \(SPPs\)](#) which give our clients a cost effective way to apply the right resources at the right time.

ITERATIVE APPROACH

Wherever your organization is on the continuum (first deployment, migration from an early version of SharePoint® or another portal product, implementing a new line-of-business solution), SPPs allow you to:

- Take your SharePoint® environment or application to the next level
- Jump start your project with expert SharePoint® resources
- Enhance a specific dimension of your SharePoint® implementation (taxonomy, security, etc)
- Transfer valuable SharePoint® knowledge to your internal IT and business resources

Our [SharePoint® Productivity Packs](#) are flexible to use and priced to allow you to select the appropriate building blocks for your immediate SharePoint® needs. All engagements are anchored in Virtual IT's robust SharePoint® Deployment Methodology and staffed by our experienced and certified technical and business consultants.

Virtual IT is a full-service information technology consultancy, providing high-level strategic and tactical support for businesses, state and federal government agencies, and city and county governments. Clients look to us for leadership in the areas of Business & IT Strategy, Project, Program & Portfolio Management and Portal & Collaboration Solutions. The firm is headquartered in Roanoke, Virginia with regional offices in Vienna, Virginia and Charlotte, North Carolina.
